Modular wet wipe

Our wall-mounted wet wipe dispenser is essential for any hygiene-conscious environment, from healthcare, leisure centres, and catering units, to industrial workplaces. This unique dispenser keeps wipes fresh, hygienic and available for speedy sanitising in seconds.

We offer a totally new innovation for the global market. Alternatively, we can custom-design wet wipe dispensers to suit your own-brand wet wipe pouches or unique requirements.

Our dispensers can even be locked to the wipes of your choice. Custom-designed dispensers are subject to a minimum order – contact us for more information.

Subject to quantity, exclusivity of the pouch fitting will enable you to keep the competition out.

The wet wipe dispenser is a clever system that gives you the flexibility to choose your own wipes and chemical formulations. We work with you to find the right partner for our system.

- Unique seal keeps wipes moist and hygienic
- Pop-and-grab lid makes sanitising quick and convenient
- Dispensers can be customised to dispense your own-brand wet wipes
